

PRODUCT DATA SHEET. GRAPHITE 9092

General Product Description

Graphite 9092 is a high purity natural crystalline graphite.

Typical Uses.

Lubricants.

Packings.

Pencils.

Brake Linings.

Conductive coatings.

Batteries.

Typical Chemical Analysis.

Graphitic Carbon.	91.5%.	Min 90%
Ash.	8.5%	Max 10%

Typical Screen Analysis.

Residue on 40 microns.	0.9%
Passing 40 micron	99.1%
Passing 20 micron	96.0%
Passing 10 micron	74.0%
Passing 5 micron	32.0%
Passing 3 micron	9.0%
Passing 2 micron	3.0%

Median particle size.	19.5 microns
-----------------------	--------------

Packing. 20 kg bags.
