

PRODUCT DATA SHEET. GRAPHITE 9092/MICROFYNE

General Product Description

Graphite 9092/MICROFYNE is a high purity natural crystalline graphite.

Typical Uses.

Lubricants.

Packings.

Pencils.

Brake Linings.

Conductive coatings.

Batteries.

Typical Chemical Analysis.

| | | |
|-------------------|--------|---------|
| Graphitic Carbon. | 91.5%. | Min 90% |
| Ash. | 8.5% | Max 10% |

Typical Screen Analysis.

| | |
|------------------------|-------|
| Residue on 40 microns. | 0.9% |
| Passing 40 micron | 99.1% |
| Passing 20 micron | 96.0% |
| Passing 10 micron | 74.0% |
| Passing 5 micron | 32.0% |
| Passing 3 micron | 9.0% |
| Passing 2 micron | 3.0% |

Median particle size. 19.5 microns

Packing. 20 kg bags.
